

Somewhere In Time

[Best Movie Category!!!! Awesome Soundtrack.](#)

I'm glad I happened upon this soundtrack after all these years. Had never seen the movie but bought it for a friend (and one for myself) who was visiting Mackinac Island this summer. Bought the soundtrack with the idea of giving it to her, also, but after watching the movie and hearing the hauntingly beautiful music decided to keep it for myself! (Maybe I'll get her a copy sometime..LOL) Now that I have discovered it I play it often; to me, it almost sounds like a "prayer".

(many might wonder what rock I had been living under not to have seen the movie or been aware of the music before now.....there is an answer to that)
